UR_six_ETs	User shall fight against a total of 6 ET fortresses	_
LID matricle	Hear shall make around the reservoiding ET returns	
UR_patrols	User shall move around the map avoiding ET patrols	
UR_seeHUD	User shall see a HUD showing health and water	
	User shall be notified when they win/lose a level, i.e. when the fortress is completely flooded, all firetrucks are destroyed/fire	
UR_end_game_screen	station is destroyed(M)	
UR_station_refill	User should be able to refill and repair Fire Trucks at the Fire Station	<mark>ADDED</mark>
User shall know when they are close to needing to refill or repair. (S)		
UR_strategy	User shall strategise how to manage and deploy their fire engines.(M)	
UR_attack_notificatio	User shall be notified when the fire station is about to be destroyed.	
 n	(M)	
UR_interest	User shall be drawn in by the game, and not be bored. (M)	
UR fresh health	User shall be able to start each level with full health (C)	
<u>OK_ITESII_ITEGICII</u>	oser shall be able to start each level with rail hearth (c)	
	User shall be able to understand the game - be able to finish without	
UR_ease	being confused by mechanics. (M)	
LIP music	Play music in the many state (C)	
UR_music	Play music in the menu state. (C)	
	The user shall not be able to pass through buildings and other objects, other than other firetrucks. Fire Trucks can pass through	
UR_collisions	fire trucks	
	The game shall have various difficulty settings that change aspects	
UR_difficulty	of the game.	<mark>ADDED</mark>
	User shall be able to save their game at any point and exit the game.	
<pre>UR_save_load_quit</pre>	The state shall be preserved and can be loaded back at any point.	<mark>ADDED</mark>

FUNCTIONAL REQUIREMENTS				
ID	Description and User Requirement it Links to	User Requirement Satisfied		
FR_display_timer	System shall display a timer - countdown until aliens destroy the fire station. Show when timer is over.	UR attack notification		
	Between levels user's progress is recorded and data			
FR_auto_save	shall be saved locally on system.	UR_save_load_quit		
FR_pause_inlevel	System shall be paused during play. This stops all movement of patrols and the timer. Menu pops up with options.	UR_pause		
	System shall be able to save user progress at the end of the level. We do not save their current state half-way through the level. If they quit the level half way through, they reset themselves upon that level			
FR_save_quit	upon revisiting.	UR_save_load_ quit		
_FR_auto_repair	Between levels damaged fire engines health are restored back to full automatically	UR_fresh_health		
FR_truck_movement	The trucks should move across the screen when commanded by the user	UR_four_trucks		
FR_unique_engines	Fire engines have unique spec - Volume of water, speed, range, delivery rate, max health.	UR_strategy		
FR_unique_enemy	Enemies will have unique spec - defensive weapons, weapon damage, volume of water needed to flood.	UR_strategy		
FR_level_gimmicks	Levels shall be different to each other and intriguing	UR_interest		
FR_engine_fire	The user should be able to fire water at enemy patrols and fortresses.	UR_four_trucks		
FR_fortress_recover	Fortresses should be able to recover health over time whilst not being attacked.	UR_six_ETs		
FR_enemies_die	Enemies shall evaporate (disappear) when they come in contact with water and their health is zero.	UR_six_ETs, UR_patrols		
FR_engine_destr oyed	System shall notify the user when their fire engine is destroyed	UR_seeHUD		
FR_no_refill	Once the Fire Station has been destroyed, the user is no longer able to refill or repair their firetrucks.	UR_station_refill		
FR_6_levels	The game shall include 6 levels of increasing difficulty	UR_select_level		

	User wins if they deplete the health of the enemy	
	bases and complete the final level. User loses if all	
	their fire engines are destroyed (all health levels are	
FR_end_game	zero in a level).	UR_ease
	The system shall take the user back to the level select	
FR_new_level	screen when they have completed a level.	UR_end_game_screen
	When player makes ET fortress' health points drop to	
FR_open_minigame	zero, the system shall start the minigame	UR_ minigame
FR_minigame_oppon ents	The minigame should contain a number of enemies of different colours and sizes	UR_minigame
ents	When the bomb explodes close to an enemy, the	ON_IIIIIIgaille
FR_minigame_bomb	enemy should be damaged	UR_minigame
	The system should play the music when the game	
FR_play_music	enters the menu state.	UR_music
	The system shall stop the user from moving through	
FR_deny_collisions	obstacles other than fire trucks.	UR_collisions
	What is displayed on the screen and what the user	UR_ start_screen,
	can interact with is controlled by a game stack. The	UR_save_ load_quit, UR_select_ level,
FR_game_states	top of the stack is the current game state that the user is interacting with.	UR_pause, UR_ minigame
TN_game_states	System should be able to store saved progress	ON_pause, ON_mmigame
FR_security	accurately.	UR_save_load_quit
	Fire trucks positions after being moved should have a	
FR_precision	small error margin.	UR_four_trucks
ED notrols areas	Enemy patrols should move around the map inside	LID potrols
FR_patrols_areas	designated patrol areas Enemy patrols should attack the Fire Engine when in	UR_patrols
FR_patrols_attack	range	UR_patrols
FR move towards st	Aliens should move towards the Fire Station after a	
ation at its answer	certain amount of time.	UR_patrols
	Fortresses should attack the Fire Engine when in	
FR_fortresses_attack	range	UR_six_ETs
	Powerups should spawn randomly on accessible areas	
FR_powerup	of the map and can be picked up by the player to grant a benefit.	UR interest
- K_powerup	The user should be able to save their game at any	ON_INTEREST
	point and the state is preserved. The user can save	
FR_save_game	up to 3 states.	<pre>UR_save_load_quit</pre>
	The user should be able to load their game at any	
ED load game	point with the state of the game remaining unaltered.	LID cave load avit
FR_load_game	They can choose which state is loaded. The user should be able to select a difficulty from the	UR_save_load_quit
FR_select_difficulty	three options on the level select screen.	UR_difficulty
ocicec_airricarcy	Depending on which difficulty was selected the game	
FR_change_difficulty	should become easier or harderm	UR_difficulty
